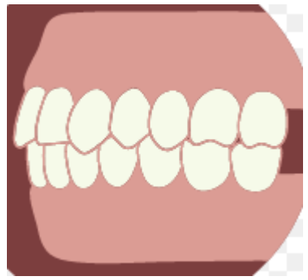
Biology - Animals including humans

Subject Specific Vocabulary

herbivore	
carnivore	
omnivore	
producer	.
predator	
prey	
digest	
oesophagus	
stomach	
small intestine	
large intestine	

Associated Diagram

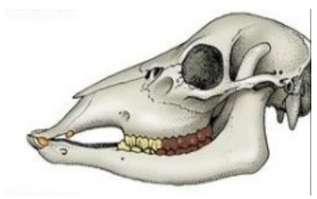
Label the type of tooth by drawing lines:

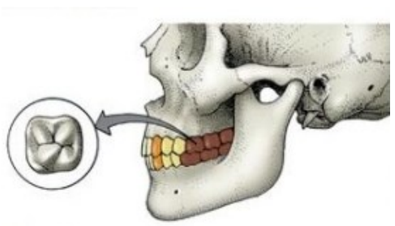


incisor canine premolar molar

Draw arrows on the food chain to show the flow of energy.

Label each part of the food chain: **predator**, **producer** or **prey**.





Look carefully at the teeth in each diagram. Label each of the skulls:

herbivore, **carnivore** or **omnivore**.

Sticky Knowledge

Using scientific vocabulary, explain what the digestive system is.

What is the function of the premolar and molar teeth?

What is the function of the canine teeth?

What is the function of the incisor teeth?

Write two ways that humans can prevent tooth decay.

Give an example of a producer in a food chain.

Give an example of a creature that could be both a predator ***and*** prey in a food chain.
